

Al-Hikmah School
January 2010 Newsletter

Assalam Alaikum Respected Al-Hikmah Families,

Welcome back to school and another opportunity for your child's academic and Islamic growth!

At this important mid-way point in our year, I would like to take some time to find out from our dear parents about the services we are providing here at Hikmah and how we can improve them.

It is our partnership together that will bring the best results. I always encourage your feedback in your child's education as I strive to make the best educational choices for all of our children.

These surveys are completely confidential so I hope that you will be completely open and honest about our school and where you would like to see our standards within the next few years.

Also attached this month is a handout about parental involvement.
